

## UK INTERPRETATIONS GROUP

The BTHA's interpretations group consisting of BTHA members, test laboratories, manufacturers, importers and retailers has agreed upon the following interpretation.

Interpretation no.	134
Date of submission	01/06 20
Standard/Directive	<b>BS7272 – 2 +A1 2014</b>
Clause No	3.2
Clause Title	<b>End closures</b>

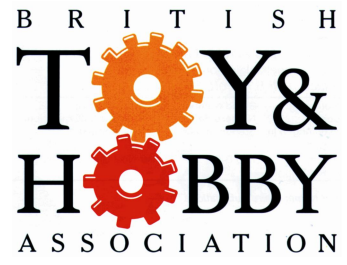

### Question

Under the definition of an end does the sample pictured with 2 x separate end plugs and 1 x end cap, require that 3 x BS 7272-2 tests need to be performed?

### Interpretations Group Answer /Action

Three tests need to be performed. as long as any BS 7272-1 air flow tests are carried out with these closures in place, all 3 should then be assessed against the end closures requirements.
